SECURITY
Google **OCT 2025**

ABOUT ME

Proactive and detail-oriented 3rd year B.Tech. Computer Science Engineering student with an academic record of 9 CGPA. Skilled in leadership and management, backed by Google certifications in Project Management and Cyber Security. Proficient in Python with hands-on experience as a Technical Trainer. Eager to apply strong problem-solving skills and comprehensive CSE knowledge to challenging projects, with a focus on cyber security.

INTERNSHIP EXPERIENCE

mPower Training Services - Technical Trainer **APR-MAY 2025**

- Product Adoption Training - Adobe Express Project
- Conducted on-site training sessions for students on Adobe Express software

TECHNICAL PROJECTS

Agri-Safe **APR 2026**

- A Context-Aware Crop and Resource Advisory Platform
- Improves accuracy in selecting the proper crops to plant by using real time environmental (weather and other related) data together with soil parameters and geospatial (GPS) information
- Minimizes input (fertilizer, seed, etc.) waste and improves overall productivity & resilience of agriculture
- Tech Stack** - CNN, Python (Flask), React.js, NoSQL, Ngrok & Gemma

LLM Indirect Prompt Injection Exploit **SEP 2025**

- Developed and demonstrated a proof-of-concept for an Indirect Prompt Injection attack against an LLM powered application
- Implemented a robust security solution by hardening the model and creating a defensive input/output validation layer
- Won the 2nd Prize at the CDAC Project Showcase Competition
- Tech Stack** - Ollama (mistral 7b), Python (Flask), HTML5 & CSS3

EXTRA-CURRICULAR

- Research Intern at IIT Patna
- Former UGC NEP SAARTHI at IILM University
- Learning Japanese

SKILLS

- Programming in Python, C & Java
- Core CSE - DSA, OOP, OS, Computer Networks, DBMS
- Hands-On experience with various Cyber Security Tools
